**NOTICE OF DRAFT RESOLUTIONS
(Pursuant to PU Code § 311(g))**

Pursuant to Public Utilities Code § 399.8, directs Pacific Gas and Electric Company, Southern California Edison Company, and San Diego Gas and Electric Company to collect monies from customers to fund investments in energy efficiency, renewable energy, and research, development and demonstration projects

A draft resolution of the Energy Division as Public Utilities (PU) Code § 399.8 requires the three major California investor owned electric utilities to assess a Public Goods Charge (PGC) to customers in order to fund certain public interest programs. It specifies that, starting January 1,

2002, \$425.5 million is to be provided to these programs each year until January 1, 2012.

However, § 399.8 does not specify how much of this annual total is to be allocated among the utilities except for the Energy Efficiency (EE) programs.

Opening comments are due on November 4, 2002 and reply comments are due on November 12, 2002. Both opening and reply comments are limited to five pages. Copies of the resolution can be obtained by contacting:

Jack Fulcher
Electric Industry & Finance Branch
California Public Utilities Commission
505 Van Ness Avenue, 4th Floor
San Francisco, CA 94102
Telephone: (415) 703-1711

Draft Resolution M-4807 will be placed on the Commission Meeting Agenda of November 21, 2002. This resolution adopts level of utilities reimbursement account fees for fiscal year 2002-03.

Interested parties may obtain a copy of Resolution M-4807 for review and submission of written comments. A copy of the draft resolution may be obtained from, and any subsequent written comments should be submitted to:

James Wuehler
Water Division
California Public Utilities Commission
505 Van Ness Avenue
San Francisco, CA 94102
jrw@cpuc.ca.gov

Public necessity requires that the 30-day comment period of Public Utilities Code Section 311(g) be reduced so that the Commission may collect the revenues as set forth in this resolution as soon as possible. The Commission concludes that a reduction in the 30-day review period by 2 days will not compromise the public interest or any party's rights.

Accordingly we reduce the comment period for this resolution from 30 days to 28 days. Parties who wish to file comments on this resolution may do so no later than November 10, 2002.

10/11/02	R02-01-011	Order Instituting Rulemaking regarding the
		implementation of the suspension of direct access
		pursuant to Assembly Bill 1X and Decision

01-09-060.

Summary: On October 8, 2002, Mark Huffman, Attorney, Pacific Gas and Electric Company (PG&E), participated in an all-party meeting with Cmmr. Brown in San Francisco. Also present was Bill Stock, Chief, Regulatory Relations, for PG&E. Huffman stated that PG&E generally supports the proposed decision (PD), more specifically, PG&E agrees that a surcharge cap needs to be in place, and that the current record is not strong enough to create a basis for a specific cap. Huffman suggested to hold expedited workshops to develop an appropriate record in this regard. Regarding any shortfall in the surcharge, Huffman stated that PG&E cannot finance such a shortfall and that here, too, the record does not provide a clear basis for determining an appropriate interest rate for such financing. Huffman also noted that regarding bond charges, the PD correctly concludes that operational reserves may be used in future years to cover operational costs if they are no longer needed to cover bond reserves.

	R93-04-003	Commission Order Instituting Rulemaking on Commission's own motion to govern open access to bottleneck services and establish a framework for network architecture development of dominant carrier networks.

Summary: On October 9, 2002, Catherine F. Boone, Vice President, External Affairs, for Covad Communications Company (Covad), met with Cmmr. Peevey and Cmmr. Brown in two separate meetings in San Francisco. At the meeting with Cmmr. Peevey also present was Lester Wong, advisor to Cmmr. Peevey; and at the meeting with Cmmr. Brown – Robert Wullenjohn, advisor to Cmmr. Brown. Melia Carter, Director, External Affairs for Covad, participated in both meetings. Written material (attached to the notice) was used. Covad representatives described the benefits of competition in the broadband services market to California consumers, and challenges in the DSL market, including the preservation of particular unbundled network elements upon the Federal Communications Commission's conclusion of its Triennial Review process.

10/15/02	A01-03-008	Pacific Gas and Electric Company, for Commission Approval for Irrevocable Lease for Metromedia Fiber Network Services, Inc. to Use Fiber Optic Cable on certain PG&E Transmission Facilities under terms of an Optical Fiber Installation and IRU Agreement.
----------	------------	--

Summary: On October 10, 2002, Edward W. O'Neill, attorney for Metromedia Fiber

Network Services (MFNS), met with Steven Weissman, advisor to Cmmr. Wood, at Opera Plaza in San Francisco. O'Neill stated that the proposed decision appears to misconstrue the California Environmental Quality Act (CEQA), Commission practice with respect to licensing and environmental review of telecommunications network facilities, and Commission policy concerning Public Utilities Code section 851. O'Neill stated that CEQA does prohibit segregating a single large project into a number of separate smaller projects, but pointed out that this prohibition does not apply where future customers of a network cannot be determined with any certainty and where the location of possible future network facilities is entirely speculative and not susceptible of meaningful analysis.

Summary: On October 9, 2002, Jenny Wong, Director – Regulatory Affairs, Verizon California Inc. (Verizon), met with Fassil Fenikile, advisor to Cmmr. Duque, in San Francisco. Also present was Catherine Ronis, counsel representing Verizon. Written materials (attached to the notice) were used. Ronis presented Verizon's proposal as a reasonable approach for purposes of determining interim rates without extensive litigation of costs studies. Wong stated that the Commission should not abandon its own previously adopted rates in favor of another state commission's adopted rates. Wong explained that Verizon's proposal in fact falls well within the range of recently adopted UNE rates by various state commissions and should be adopted.

10/15/02	R02-01-011	Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.
----------	------------	---

Summary: LATE FILED. On October 8, 2002, Thomas Beach of the consulting firm Crossborder Energy represented the California Manufacturers & Technology Association (CMTA), at an all-party meeting with Cmmr. Brown in San Francisco. Also present were David Gamson, advisor to Cmmr. Brown, Laura Krannawitter and Lynne McGhee, advisors to Cmmr. Duque, and Steven Weissman, advisor to Cmmr. Wood. Beach referred to the proposed decision (PD) of ALJ Pulsifer and stated that the CLECA method will meet the Commission's goal of designing an exit fee that keeps

bundled ratepayers indifferent to a September 20, 2001 suspension date for direct access (DA). Beach also stated that CMTA also supports the PD's adoption of a 'true-up' to reflect actual Department of Water Resources (DWR) costs. However, Beach expressed CMTA's concern that the CLECA method is very complex and argued that the CMTA's method also would produce ratepayer indifference, and would be much simpler to administer. Beach also commented that the PD misapplies the CMTA approach to calculate the 'Tail CTC' component of the CLECA exit fee. Beach pointed out a problem with the PD's adoption of a flat 2.7 cents per kWh 'cap' on the DA exit fee. Beach argued that an alternate is needed to address these methodological issues.

Summary: On October 9, 2002, Michael R. Hoover, Director of Regulatory Policy and Affairs at Southern California Edison Company (SCE), met with Laura Krannawitter, advisor to Cmmr. Duque, in San Francisco. Written materials (attached to the notice) were used. Hoover stated that the proposed decision (PD) needs to clearly specify the Commission's intent that SCE's 1c/kWh Historical Procurement Charge will be collected under any direct access (DA) Cost Responsibility Surcharge (CRS) cap. Hoover stated further that under the 2.7 c/kWh CRS cap contained in the PD, there will be a significant undercollection in the early years of recovery. Hoover suggested that this undercollection needs to be financed by bundled service customers in SCE's territory. Hoover also noted that, assuming a fifteen year amortization period and a reasonable rate of interest on the undercollection, it is not likely that the undercollection in the yearly years can be recovered under the 2.7c/kWh CRS cap.
